

## Polyurethane (PU) Training

### Target group

Production managers and machine operators

### Course objectives

Basic understanding of PU process technology  
Safe handling of PU materials  
Optimal machine set-up and operation

### Content

Safety instructions  
Handling of chemicals and equipment  
PU Process engineering and material properties  
Storage, preparation and processing of PU  
Structure and function of the system  
**DES**can<sup>®</sup>-interface, controls and buttons  
Literation and penetration  
Setting of injection and production parameters  
Building up of moulds and optimizing items  
For D521, D522, D622, D822, S511, B512, T511 machines

### Training details

Course duration: 4 days  
Number of participants: up to 3 people  
Dates: by arrangement  
Location: at DESMA in Achim or at your location
